What is home & lighting?

By 2019, Home and Lighting was officially launched, offering innovative solar lamp post lights, led solar street lights, and dusk to dawn solar lights that could light up even the darkest corners. Our commitment was clear--to create durable, weatherproof, and cost-effective lighting solutions for every outdoor space.

Are USA-made solar lights good for the environment?

Diving into the environmental impacts of USA-made solar lights reveals major benefits. Let's examine the details: Cutting carbon footprint: Solar lights from the USA collect energy from the sun, lowering use of non-renewable energy sources.

Who makes the best solar street lights?

One of the best manufacturers of solar street lights is Solar Street Lights USA. They have been impressing the solar lighting industry with their reliable products for 30 years.

How much sunlight does a solar panel need?

Generally, eight-10 hours of direct sunlight per day, will produce around 15 hours of illumination. But this will depend on location, type of light and exposure it gets. It's best to place your lights in an area that isn't shaded by trees, walls or even certain roofs, as these can obstruct the amount of light the solar panels receive.

Today, we're proud to have over 120,000 satisfied customers and more than 350,000 solar lights illuminating homes, backyards, streets, and parking lots across the country. From rural areas without access to reliable electricity to ...

Over the past two years, we've tested 62 different outdoor lights (you read that right) including solar pathway, smart, spotlights, lanterns, wall-mounted, and string lights. We became solar light experts, if we do say so ourselves. We put outdoor solar lights to the test in The Lab, where we simulated hail storms and filmed the lights overnight to see if they truly stayed on ...
