

Uninterruptible Power Supply Purchase in Cuba

Why is the energy crisis teetering in Cuba?

Cuba is in the throes of a severe energy crisis, driven by fuel supply disruptions and compounded by obstacles in securing vital technologies and supplies needed to modernize and operate its aging power plants. The situation, exacerbated by U.S. sanctions, has left the nation's energy system teetering.

What happened to the energy sector in Cuba?

From that more recent crisis arose the so-called Energy Revolution and the government changed the leadership of the then Ministry of Basic Industry, responsible for the sector. With few traditional sources of its own, Cuba has always been dependent on imported energy.

How has Cuba regained electricity?

In the last 24 hours, Cuba has made significant strides in restoring electricity: 7:54 a.m.: Felton 1, part of the Lidio Ramón Pérez thermal power plant in Holguín province, was synchronized with the national grid, marking an important step toward stabilizing power after the total system disconnection on October 18.

Why is the Cuban electric power system losing its operations?

The so-called thermal generation is the basis of the Cuban Electric Power System, but it suffers from the handicap of an aging and overexploited infrastructure. In addition, it has been losing part of its operations, following the withdrawal of the Mariel, Renté, Nuevitas units and the historic Tallapiedra plant in Havana.

Does Cuba have a comprehensive energy policy?

Currently, the global power generation sector is undergoing a massive transformation, as a result of increasing pressure to reduce carbon emissions and rapid and profound technological developments in renewable energy. Cuba lacks a detailed strategic roadmap towards a comprehensive national energy policy that addresses these challenges.

Why is Cuba facing a power crisis?

HAVANA, Oct 14 (IPS) - With aging infrastructure and problems with fuel supplies, Cuba is facing a crisis in its electric power generation system, which could accelerate plans to increase the share of renewable sources in the energy mix. In recent weeks, blackouts have been widespread in the 15 provinces of this Caribbean island nation.

If you're selling a used UPS, you're probably also looking for a new UPS unit. Fortunately, we can help you with that too--you can buy a new or refurbished UPS system from us at a competitive price.
