In today's world where continuous power supply is vital for the successful functioning of any organization, MMR's Uninterruptible Power Supply (UPS) helps your enterprise enjoy uninterrupted power supply in instances of power cuts, a complete outage or mains failure.

An uninterruptible power supply, or UPS, is a continuous power system made to ensure your facility's power infrastructure has an automated backup power source in the event of an outage or other power disturbances. Other systems, such as automatic transfer switches and standby natural gas and diesel generators, provide similar coverage. The ...

SECO-HVDCDC1362-40W-GEVB is highly efficient and primary-side regulated (PSR) auxiliary power supply targeting HEV and EV automotive power trains.
