

Ups uninterruptible power supply in Lagos Nigeria

Which is the best ups in Nigeria?

These include the likes of the Mercury UPS range which is widely used in Nigeria and known for its stable performance. Also, there is the Bluegate UPS range which can be trusted when it comes to uninterrupted power supply whether you are at home or in the office. Other brands include the popular Binatone, Maxtron, Vectronic and the Mercury Elite.

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) is a device that keeps your computer running for a short period of time even after the primary power source is lost. It also provides protection from power surges. However, UPS isn't only restricted to computers, it can also be used with other devices like your TV set.

Why should you use uninterruptible power supplies?

Uninterruptible Power Supplies for 24/7/365 running of ATM's and SERVERS Protecting Critical equipment and control systems from surges and Voltage Fluctuation. When excellent customer service and experience is essential to your reputation, downtime is not an option.

How does an UPS system work?

The UPS system works with the aid of a battery that kicks in once there is a loss of power from the primary source. If you're using the computer at this time, you can save the data you are working on and shut down your system before the UPS power runs out.

How much does an UPS system cost?

PRICES LAST UPDATED: SEPTEMBER 13, 2022. Generally, your choice of a UPS system should be dependent on factors like price, your unique and the features of the system. When it comes to pricing, you can get a UPS system for as low as 14,000. On the other hand, there are systems that cost millions of naira.
