

What is the energy & power mix of Uzbekistan?

l roadmap at [iea.org/programmes/eu4energy](https://www.iea.org/programmes/eu4energy) Uzbekistan's Energy & Power Mix Uzbekistan is a net exporter and one of the world's largest natural gas producers, with natural gas accounting for 90.5% of total energy production in the country. The country's energy supply is also dominated by fossil fuels, with renewable energy - almost exclus

How much solar energy does Uzbekistan use?

The solar energy gross potential totals $2\,134 \times 10^3$ PJ, while technical potential is estimated at 7 411 PJ, which is equivalent to almost four times the country's current primary energy consumption. Source: Based on IEA (2020a), Uzbekistan Energy Profile.

What is Uzbekistan's solar energy vision?

It outlines the sustainable energy environment solar energy could deliver and offers a timeline up to 2030. In this vision, Uzbekistan succeeds in maximising the benefits of solar energy capacity for both electricity and heat, making solar energy one of the country's major energy sources.

What is the energy potential of Uzbekistan?

Uzbekistan has considerable renewable energy potential, a substantial amount of which lies in solar energy. The solar energy gross potential totals $2\,134 \times 10^3$ PJ, while technical potential is estimated at 7 411 PJ, which is equivalent to almost four times the country's current primary energy consumption.

How can Uzbekistan improve its energy strategy?

tion. (e.g., balancing markets, pumped storage hydropower, interconnections) Integrating Uzbekistan's solar energy strategy into its larger energy strategy, while also looking towards increased regional co-operation, particularly on electricity trading, will allow Uzbekistan to truly

Which renewables contribute to the energy balance of Uzbekistan?

Currently, the only renewable with some share in the energy balance of Uzbekistan is hydropower. Despite their potential, the other renewables presently make an insignificant contribution. Along with economic development, we must think of preserving our natural resources and preventing environmental degradation.

Power Uzbekistan 2025 is held in Tashkent, Uzbekistan, from 5/13/2025 to 5/13/2025 in CAEx Uzbekistan.
