

Yerevan Solar PV Panels

Who makes solar panels in Armenia?

Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel. In Solaron Company merged a team of highly qualified professionals with many years of experience in the business organization from scratch.

Is Solara a green energy company in Armenia?

THIS IS NOW! Solar photovoltaic installation company SOLARA has adopted a strategy to carry out activities in the field of the green economy in Armenia and promote its development. Why Choose Solara? There is a great potential for solar energy in Armenia.

Where is Solaron available in Armenia?

Solaron's services are available throughout all regions of Armenia. Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel.

Why is solar energy important in Armenia?

There is a great potential for solar energy in Armenia. Its effective use is beneficial both economically and in other spheres of social life and everyday life. SOLARA company offers modern solar solutions, that provide exceptional efficiency, save a lot of money. Every project with us is successful.

Where are Solaron solar panels made?

Solaron produces solar panels at its own modern production facilities located in Yerevan. To ensure the production of high-quality solar panels, the company has invested in a modern and innovative production line from the renowned Italian company Ecoprogetti.

When will Solaron participate in Armenia Expo 2024?

Solaron will participate in ARMENIA EXPO 2024 on September 6-8, which is an exhibition organized by the Union of Industrialists and Businessmen of Armenia and LOGOS EXPO Center. It will take place in 2024, from September 6 to 8 at the sports concert complex named after K. Demirchyan.

ITAL SOLAR brings you the finest solar panels in Armenia, delivering sustainable energy solutions that harmonize with your environment.

Global solar photovoltaic (PV) installations on rooftops and in power plants are growing rapidly and will grow further as the world transitions from fossil fuels to clean, renewable energy (Jacobson et al., 2017). A critical parameter for installing fixed-tilt panels is the tilt angle, since PV panel output increases with increasing exposure to direct sunlight.

rooftop-based, ground-based, facad-based solar Photovoltaic Systems for your residences and commercial buildings. We also offer construction and installation of solar shelters. We design, install and maintain Various Photovoltaic ...

Yerevan Municipality has started the "EU4Yerevan: Solar Community" program which is implemented within the frames of "Covenant of Mayors" initiative. Solar photovoltaic panels are being installed on the roofs of

blocks of flats. 100 blocks of flats have been included in the program instead of 90 previously selected ones.
